

Exercise (21)

Use this questionnaire yourself, and also give it to your practice audience before presentation

1. What questions did I raise in the audience's mind during my speech?

2. What information was I sketchy on? What further information is needed?

3. Did my examples illustrate my points? If not, what were the weak spots?

4. Was I clear about my points and my conclusions? If not, where can I clarify?

5. What were my presuppositions? How might my conclusions be different if my examples were different?

6. What were the weak spots in my reasoning? How might I be challenged by someone who disagrees with my conclusions?

7. How do my conclusions relate to other topics, even unrelated ones?
